

ATLANTA TECHNICAL COLLEGE

Industrial Systems Pathways

This program provides background skills in several areas of industrial maintenance including electronics, industrial wiring, motors, controls, PLCs, instrumentation, fluid power, mechanical, pumps and piping, and computers. Program graduates will be able to work as industrial system maintenance personnel, technicians, electricians, millwrights, and other related jobs that are charged with inspecting, maintaining, troubleshooting, and repairing commercial and industrial mechanical and electrical systems. The number of jobs in this field is expected to increase by 11.3% over the next 10 years.

Industrial Mechatronics Certificate

2 Semesters

6 Classes

(3 to complete Certificate, 3 Towards Overall Program)

Careers: Mechatronics technicians, technicians, electricians, mechanics, millwrights

Estimated Starting Salaries at \$36,000/year

Industrial Systems Technology Associate's Degree

2-3 Additional Semesters

10-12 Additional Classes

Careers: Industrial maintenance technicians, operations engineers, technicians, electricians, mechanics

Estimated Starting Salaries at \$46,000/year
