

Atlanta Technical College

Civil Engineering Pathways

The program will prepare students for immediate employment at the technical level in engineering design, drafting, surveying and construction. The program will provide theory and practice to move into the workforce with engineering consultants, surveying firms, state and local government, public works, construction companies, highway departments, and soil and material testing firms. The program will consist of two specializations, a general tract or surveying specialization. Students may choose to complete the either tract for an A.S. degree. The number of jobs in this field is expected to increase by 13.7% in Fulton and Clayton counties and 12.1% in the State of Georgia by 2030.

Engineering Technology Fundamentals Certificate

2 Semester

4 Classes

Careers: Engineering Technician

Estimated Starting Salaries at \$33,931/year

Civil Engineering Associate's Degree

4 Additional Semesters

18 Additional Classes

Careers: Civil Engineer

Estimated Starting Salaries at \$54,369/year
