

# ATLANTA TECHNICAL COLLEGE

## Magnetic Resonance Imaging Specialist Certificate

2 Semesters

6 Classes

Careers: Magnetic Resonance Imaging Technician

Estimated Starting Salaries at \$82,985/year

## Magnetic Resonance Imaging Pathways

The Magnetic Resonance Imaging technical certificate program provides educational opportunities to the post-graduate registered Radiologic Technologist, registered Radiation Therapist, registered Sonographer, and registered Nuclear Medicine Technologist in good standing. It provides students with the knowledge needed to perform MRI exams, and to sit for the Post-Primary Magnetic Resonance Imaging certification Examination. The academic component is designed to meet competency requirements of the American Registry of Radiologic Technologists (ARRT) exam in Magnetic Resonance Imaging, as well as providing for continuing educational requirements.

Applicant must be certified in radiography, nuclear medicine, or radiation therapy by the American Registry of Radiologic Technologists (ARRT). A copy of the front and back of the ARRT certification card must be submitted. Applicants who are recent graduates of an accredited radiologic technology program may request a waiver of this requirement but must submit a copy of their ARRT certification card prior to start of the program.

The number of jobs in this field is expected to increase by 12.7% in the State of Georgia and by 11.2% in Fulton and Clayton Counties by 2030.
