

ATLANTA TECHNICAL COLLEGE

Mammography Pathways

The Mammography certificate program prepares students to sit for the national certification examination in mammography offered by the American Registry of Radiologic Technologists (ARRT). The Program meets MQSA initial education requirements for mammographers and continuing education. This program leads to a technical certificate and can usually be completed in one semester. The number of jobs in this field is expected to increase by 15.9% in Fulton and Clayton counties and 17.5% in the State of Georgia by 2030.

Applicant must be certified in radiography, nuclear medicine, or radiation therapy by the American Registry of Radiologic Technologists (ARRT). A copy of the front and back of the ARRT certification card must be submitted. Applicants who are recent graduates of an accredited radiologic technology program may request a waiver of this requirement but must submit a copy of their ARRT certification card prior to start of the program.

Mammography Certificate

1 Semester

2 Classes

Careers: Medical Sonographer

Estimated Starting Salaries at \$84,891/year
