

# ATLANTA TECHNICAL COLLEGE

## Welding & Joining Technology Pathways

This program is designed to prepare students for careers in the welding industry. It emphasizes welding theory and practical applications necessary for successful employment. Program graduates will be prepared to work in entry-level positions in the construction industry as a welding and joining technician. Students will also be prepared to take qualification testing. The number of jobs in this field is projected to increase by 12% in the State of Georgia over the next 10 years.
