

# ATLANTA TECHNICAL COLLEGE

## Diesel Equipment Technology Pathways

The Diesel Equipment Technology diploma program is a sequence of courses designed to prepare students for careers in the diesel equipment service and repair profession. The program emphasizes a combination of truck, heavy equipment, repair theory and practical applications necessary for successful employment depending on the specialization area a student chooses to complete. Program graduates receive a Diesel Equipment Technology diploma that qualifies them as entry-level Diesel Equipment technicians. The number of jobs in this field is expected to grow by 12% nationally and in the State of Georgia over the next 10 years.
