

# ATLANTA TECHNICAL COLLEGE

## Networking Pathways

The Computer Information Systems Networking Specialist program is designed to provide students with an understanding of the concepts, principles, and techniques required in computer information processing. Graduates will be competent in the technical areas of computer terminology and concepts, program design and development, and computer networking. By the year 2030, the number of jobs in this field is projected to grow by 13% nationally and 9% in Fulton and Clayton counties in Georgia.
